

Butterfly Class Newsletter

28.03.25

We have been doing lots of work around number bonds to 10 this week. The children have been finding pairs of numbers that make 10. The children have been doing this in lots of different ways. We have also started trying to teach the children about separating rubbish to look after the environment. We have been looking at the difference between food waste, recycling and general rubbish.

Independence:

As we are beginning to approach the last term of this year, we are really encouraging the children to be independent, especially in the morning. It would be lovely if the children could be ready to come in by the time they get to the door, carrying their own bags and books already in the box. I will put the box further away from the door to ensure this can be done before children reach the classroom door.

Changing weather:

With the weather still not quite sure what it's doing, please ensure that children have appropriate clothing in school with them, including sun hats.
