

Kingfisher Class Newsletter

Friday 18th September 2026

This week in Kingfisher Class...

English: We started our new unit of work on 'Story books' by discussing the types of books we most enjoyed reading and why.

Maths: We have been working on recognising tens and ones using different manipulatives (Base 10, Numicon, bead strings, etc.) to represent the numbers. We have also used place value grids to work out the what each digit is worth.

RE: We have completed our unit of work on 'Light' this week by exploring ways different religions use the symbols of light in their celebrations. We learnt about the story of Rama and Sita in the Hindu religion and Hanukkah in the Jewish religion.

Notices and messages:

1. Photos of Kingfishers learning at Forest School can be viewed on the school website at <https://www.hinghamprimary.org.uk/gallery/?pid=169&gcatid=87>.
2. Please encourage your child to read every night. This can also include being read to by an adult. As you share books, you are helping improve your child's reading skills, vocabulary and comprehension, as well as nurturing a love of reading.
3. We would like pupils in Kingfisher Class to aim to complete at least 30 minutes of maths practice on NumBots every week as part of their homework. Your child may choose to do this over several nights. All pupils were given their NumBots logins in July. If your child has misplaced their login details, please let us know so we can give them this information again.
