

Kingfisher Class Newsletter

Friday 25th September 2026

This week in Kingfisher Class...

English: We wrote our Discussion Guidelines in oracy this week. These are a set of agreed rules to help us become confident speakers and good listeners, and will help us with our learning in all subjects.

We also began our own stories! The children loved writing in their very own “My Writing” books and were super creative.

Maths: We have continued to look at place value this week by partitioning numbers using part whole models and representing the value of each digit in different ways. We also generated our own numbers by placing counters on place value grids and then writing the numbers in numerals and words. We worked hard on using a 100 square to find and say different numbers.

Computing: We have developed our understanding of what information technology (IT) is and identified examples. We discussed where we have seen IT in different places such as school, shops, libraries. We investigated how IT has improved our world and learnt about the importance of using IT safely.

Notices and messages:

1. Forest School photos can be viewed on the Forest School page on the school website.
2. Little Wandle readers have each taken a picture book home this week to enjoy with an adult. These books will be changed next week. **Please read at home with your child over the weekend.**
3. **Next Wednesday**, any child wishing to be considered for **School Council** will be supported to say “I would be a good school councillor because...” in front of Year 1. If your child would like to be on the School Council, please help them **think about a sentence to say.**
